WORKSHOP ON STUDENT PROJECTS IN LIFE SCIENCE

FOR UG & PG STUDENTS

Tuesday
24 September 2024
10 am to 4 pm
Bamboo Grove
TIES Campus
Velloor, Pampady

Organized by:
TROPICAL
INSTITUTE OF
ECOLOGICAL
SCIENCES,
www.ties.org.in

Research aptitude is one of the essential qualities that should be imparted through higher education. It not only meant to developing future scientists, but also to inculcate scientific and investigatory temperament among talented youth. Incorporating this noble vision of education research training is now an integral part of present day curriculum, which starts from lower primary classes, especially through projects.

However, scientific research training is not seriously undertaken by most of the institutions in India. The lapses in research in our country may be attributed to the lack of this basic training.

This workshop is aimed at training UG/PG students to do their final year/semester projects through proper research methodology. It also aims at generating future scientists by imparting scientific skills.

OBJECTIVES

- To train the students on scientific method (from formulating questions to preparing research projects)
- To inculcate the spirit of scientific temperament
- To open up research avenues before young talented students
- To equip the students on various skills of research

SYLLABUS

Basics

- Research: What, why and how?
- Types of research
- Need of research training in higher education Scope, option and funding
- Scientific method/ student projects
- Identifying a problem
- Formulating hypothesis
- Experimenting methods
- Analysing data
- Preparation of reports

To know the field

- Review of literature
Sources – books, journals, internet etc. Searching
- Writing format

Design of your experiment

- Qualitative and quantitative techniques
- Qualitative – surveys; sampling methods
- Quantitative – lab and field studies

Meaning of your data

- Statistical tools and techniques in designing experiments & analyzing results
- Presentation of data, Test, tables, charts, photos

Communicating research reports

- Preparing research reports (thesis/paper)
- Journal paper and poster preparations

FORMAT

The workshop is truly participatory in nature and consists of:

- Demonstration lectures
- Group training sessions
- Group discussions
- Formal meetings

WHO CAN APPLY

All students of U.G and P.G courses in Zoology and Botany at universities of Kerala can participate in the programme. Any number of students from a department or college can participate with advance registration.

PRACTICAL SESSION
for
selection of topics
& setting objectives

Registration Form for Workshop on Student Projects
